The Leader in Boat Lift Technology
Easy Launch, Every Time.

Our Safe Haven Systems provide easy and effortless access to the water. They are manufactured using only state of the art materials to ensure the highest levels of quality and durability. The outer shell is molded linear low-density polyethylene. Translation... this material is extremely impact and weather resistant. Also, we use light colors for our outer shell, making our Safe Haven Systems kind to bare feet. In addition, our docking systems offer unsurpassed stability when launching, docking, or walking around on the spacious non-skid deck.

The added stability is due to the core being filled with foam flotation, so our docking systems will remain more level than other cube style lifts when in use. You will grow to appreciate the easy and effortless access to the water that the Safe Haven Systems provide. Additionally, installation is a snap, and your lift can be front or side mounted to your dock using our secure attachment system. It's that easy - your system is complete and ready to use.

To launch your watercraft, simply slide off and drive away. When you're ready to return to your favorite port of call, simply target the bow guide, drive on, and walk away. While docked, you can refuel, wash your watercraft, perform maintenance, or just enjoy the view.

You will no longer waste time and money removing marine growth from your watercraft, because it is securely docked out of the water. In addition, you can look forward to years of trouble free operation from the Safe Haven Systems.

If you purchase a larger or heavier boat, we offer extensions and additional bunk heights to meet your changing needs. The extensions will accommodate most boats. The Harbor and Retreat 2 lines feature a hybrid system to aid in launching or docking most of the heavier boats.

Given the adaptability, ease of use, and low maintenance of Safe Haven Systems, let us help you minimize your effort and expense and maximize your time spent on the water with family and friends.

Safe Haven™ Boat Lifts are preferred by customers 3 to 1, because unlike our competition, our lifts...

- have a patented air lift design that lifts your craft completely out of the water in less than a minute. Models to fit crafts from 16-30'.
- are the most efficient "green" boat lifts on the market. Safe Haven™ harnesses solar energy so our lifts run without the need for electricity or remote controls. Unlike other lifts, ours contain absolutely no environmental hazards such as hydraulic fluid, oil, grease, or zinc.
- prevent any chance of mechanical failures during launching and docking. No winch required and no power needed.
- install with ease and require ZERO maintenance. Our lifts are made of the toughest materials making them non-corrosive even in the harshest marine conditions.
- reflect sunlight rather than absorb it. That means our non-skid decks are kind to bare feet and hands.

Plus, our Safe Haven™ Lifts come with an eight year warranty!
Harbor Series

Solar Hybrid Harbor Series
Attachment Kits available for floating and fixed docks

Harbor™ | Harbor™ 2 | Harbor™ 3
Made from state-of-the-art, linear low density polyethylene, non-corrosive materials.

Harbor™
Dimensions:
- 18’ x 11’ platform
- Max. working load 4500 lbs.

Harbor™ 2
Dimensions:
- 24’ x 11’ platform
- Max. working load 6000 lbs.

Harbor™ 3
Dimensions:
- 30’ x 11’ platform
- Max. working load 7000 lbs.

Features:
- Easiest boatlift to operate
- Simple lift design requires no remote controls
- Does not use environmental hazards such as hydraulic fluid, oils, greases or zins
- Non skid deck
- Zero maintenance
- Easy installation
- Unsinkable, foam filled
- A perfect fit for most types of watercraft
- Floats with tide or water level changes
- Tail extensions have multiple, replaceable bunk sizes available
- Side & Front Mount
- Solar Hybrid System
- No exposed metal framing
- No mechanical failures to prevent launching boat
- 8-year limited warranty

Solar Hybrid Harbor Series
Attachment Kits available for floating and fixed docks

Made from state-of-the-art, linear low density polyethylene, non-corrosive materials.
Features:
- Easiest boatlift to operate
- Non skid deck
- Zero maintenance
- Easy installation
- A perfect fit for most types of watercraft
- Floats with tide or water level changes
- Unsinkable, foam filled
- Side & Front Mount
- Tail extensions have multiple replaceable bunk sizes available
- Optional Solar Hybrid
- 8-year limited warranty

Retreat™ 1.6
Dimensions:
- 16’ x 7.5’ platform
- Max. working load 2800 lbs.

Retreat™
Dimensions:
- 20’ x 7.5’ platform
- Max. working load 2900 lbs.

Dimension:
- 12’ x 7’ platform
- Max. working load 2000 lbs.

Retreat™ with Skiff Package
Attachment Kits available for floating and fixed docks

Retreat™ with Skiff Package
Made from state-of-the-art, linear low density polyethylene, non-corrosive materials.
**Retreat™ 1.6 Solar Hybrid**

Made from state-of-the-art, linear low density polyethylene, non-corrosive materials.

**Features**:  
• Same great features as the Retreat™, Retreat™ 1.6, and Retreat™ 2, Plus...  
• Simple lift design requires no remote controls  
• Does not use environmental hazards such as hydraulic fluid, oils, greases or zinco  
• Easy docking and launching  
• Solar power recharge  
• No electrical power needed  
• No winch required  
• No mechanical failures to prevent launching boat  
• 110v power supply offered

**Dimensions**:  
• 16’ x 7.5’ platform  
• Max. working load 3000 lbs.

---

**Retreat™ 2 Solar Hybrid**

Attachment Kits available for floating and fixed docks

**Features**:  
• Same great features as the Retreat™, Retreat™ 1.6, and Retreat™ 2, Plus...  
• Simple lift design requires no remote controls  
• Does not use environmental hazards such as hydraulic fluid, oils, greases or zinco  
• Easy docking and launching  
• Solar power recharge  
• No electrical power needed  
• No winch required  
• No mechanical failures to prevent launching boat  
• 110v power supply offered

**Dimensions**:  
• 20’ x 7.5’ platform  
• Max. working load 3500 lbs.
Jet-T™
Made from state-of-the-art, linear low density polyethylene, non-corrosive materials

- Non skid deck
- Zero maintenance
- Easy installation
- Side rollers for easy launching
- Floats with tide or water level changes
- Unsinkable, foam filled
- Easiest PWC lift to operate
- All impact and wear surfaces are replaceable
- 10-year limited warranty

Attachment Materials:
- PVC attachment kit for calm water areas
- Use standard 4” PVC pipe for easy mounting
- Hot dip galvanized attachment kit for rough water areas

Dimensions:
- 9.5’ x 5’ x 9’ platform
- Max working load 1300 lbs.

Hideaway (Model Discontinued)
(Only Parts are available)
Attachment Kits available for floating and fixed docks

Features*:
- Non skid deck
- Zero maintenance
- Easy installation
- Side rollers for easy launching
- Floats with tide or water level changes
- Unsinkable, foam filled
- Easiest PWC lift to operate
- All impact and wear surfaces are replaceable
- 10-year limited warranty

Attachment Materials:
- Floating Dock Attachment Kit
- Fixed Dock Attachment Kit
- Hideaway Attachment Kit with storage compartment (Floating Dock Only)

Dimensions:
- 9.3’ x 5’ x 9’ platform
- Max. working load 1000 lbs.

DISCONTINUED
Some parts still available.

Side mounted rollers require no maintenance or adjustments.
